Docket No.: 5495.0001-10
Filing Date: 04/22/2004

Restriction Requirement

Status of the Claims

Acknowledgement is hereby made of receipt and entry of the communication filed 11 October, 2006, wherein claims 1-44 were canceled without prejudice or disclaimer and new claims 45-53 introduced.

35 U.S.C. § 121

Restriction to one of the following inventions is required under 35 U.S.C. § 121:

- a. Group I, claim(s) 45-49, drawn to an **MvP Env peptide**, classified in class 424, subclass 208.1.
- b. Group II, claim(s) 50-53, drawn to a **diagnostic kit** for the detection of HIV-1 type O antibodies, classified in class 422, subclass 61.

The inventions are distinct, each from the other because of the following reasons:

Unrelated Inventions

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (M.P.E.P. § 806.04 and § 808.01). In the instant case each of the identified groups is directed toward a different product with different functions. Separate searches will also be required for each product. Therefore, each group is clearly directed toward a different inventive concept.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, recognized divergent subject

matter, and require separate searches, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 C.F.R. § 1.143). Applicant is also advised that the claims should be amended to reflect the election, where necessary.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(i).
